Description	
The idea was implemented in the BreadcrumbBar component: https://github.com/theforeman/foreman/blob/develop/webpack/assets/javascripts/react_app/components/BreadcrumbBar/_tests_/BreadcrumbBarReducer.test.js#L50-L53	
Since this is going to be used in other tests, it is a good idea to move it into the test helpers: https://github.com/theforeman/foreman/blob/develop/webpack/assets/javascripts/react_app/common/testHelpers.js

Fixes #23468 - Add a test helper to test reducers with fixtures

The idea of testing a reducer using fixtures was introduced in the BreadcrumbBar tests.

Since, other components are going to be tested using this method, it is moved to testHelpers.js to avoid duplication of code.
