| Description | |
| When the manifest is deleted, refresh and delete are still enabled. These buttons should be disabled when there is no manifest imported. Here is what happens when you click refresh on a non-existent manifest http://www.clipular.com/c/5838062240923648.png?k=cLiEI-ETJ-T643L0RyXwQ7MrLX8 | |
| To reproduce, go to the new subscriptions page and delete your manifest. | |
