<b>Pull request:</b>	<a href="https://github.com/foreman/foreman/pull/5616">https://github.com/foreman/foreman/pull/5616</a> , <a href="https://github.com/foreman/foreman/pull/5711">https://github.com/foreman/foreman/pull/5711</a>	
<b>Description</b> I just noticed that when one of the statistics chart returns 500 the entire statistics list not displayed.  The error messages I get in the console logs are:  "Failed prop type: The prop `id` is marked as required in `ChartBox`, but its value is `undefined`" "Failed prop type: Invalid prop `errorText` of type `object` supplied to `ChartBox`, expected `string`"

Revision 7d6d573e - 06/18/2018 12:12 PM - Boaz Shuster

Fixes #23709 - Fix ajaxRequestAction failure dispatch

The FAILURE action dispatched in ajaxRequestAction is not aligned with the bookmarks, powerStatus and statistics reducers:

- Moving to axios returns Error object instead of a string
- The payload doesn't contain "id" but "item"

This patch fixes that problem and makes components work on failures from API.

In addition, tests were added and fixed to avoid regressions.
