Pull request:		
Description		
<p>I think migrate_foreman shouldn't be needed since theforeman/puppet-foreman@a32b663. There might be some weird stuff going on because katello initializes in a different way than regular foreman plugins. We should run through various upgrade scenarios to see if it's actually needed.</p> <p>https://github.com/theforeman/puppet-foreman/commit/a32b6639c520744fa07c925bbd9bd2146eefa28c</p>
