

Katello - Bug #23747

content view tag filters including all tags referencing a manifest

05/30/2018 04:20 PM - Thomas McKay

Status:	Closed	
Priority:	Normal	
Assignee:	Thomas McKay	
Category:	Content Views	
Target version:	Katello 3.7.0	
Difficulty:		Fixed in Releases:
Triaged:		Found in Releases:
Bugzilla link:	1592888	Red Hat JIRA:
Pull request:	https://github.com/Katello/katello/pull/7464	
Description		
<p>A container image manifest may have more than one tag. For example, tags latest, 3.9, and 3.9.27-1 may all reference the same image. When creating a content view filter that includes only 3.9, the other tags should be excluded. The code currently includes all three of the tags in this example.</p> <p>To test, sync a repo like registry.redhat.io/openshift3/cri-o, then create a cv filter to include just 3.9. Publish the cv and note that there are 3 tags.</p>
