- translation missing: en.field\_release deleted (330)

- Triaged set to No

Since we currently have a stable build process i would prefer not changing package.json unless we have to, certainly not right before 1.18.0 is released

##### #2 - 07/03/2018 09:28 AM - Ohad Levy

TBH I'm not sure we should aim for that to begin with, if you feel strongly, please explain why this is needed... thanks!
