Katello - Bug #23887

Unclear Error when performing bulk action of Manage Repository Set against Hosts without Content registration

06/11/2018 02:59 PM - Samir Jha

Status:	Closed		
Priority:	Normal		
Assignee:	Samir Jha		
Category:	Hosts		
Target version:	Katello 3.7.0		
Difficulty:	trivial	**Fixed in Releases:**	
Triaged:		**Found in Releases:**	
Bugzilla link:	1573629	**Red Hat JIRA:**	
Pull request:	https://github.com/Katello/katello/pull/7436		

Description

Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=1573629

Description of problem:

When trying to perform bulk action "Manage Repository Sets" on Content Hosts, if a Content Host has never registered, it will fail and return an undefined method error:

NoMethodError: undefined method `uuid' for nil:NilClass

Version-Release number of selected component (if applicable):

Red Hat Satellite 6.3.1

How reproducible: Easily, always?

Steps to Reproduce:
1. Create a Host: WebUI-> Hosts -> All Hosts -> Create Host - But do not actually build one yet or register that host.

2. Go to WebUI -> Content Hosts and select a number of hosts, including the one just created (which should show as "Never registered" and "Never checked in"

3. Select "Select Action" -> "Manage Repository Sets" and choose a Repository set and either "Override to Enabled" or "Override to disabled"

Actual results:

The task "Update Contennt Overrides to <content-host>" will fail with an error simply saying "undefined method `uuid' for nil:NilClass"

Expected results:

The task should still fail, or give a warning, more gracefully with an explanation of the failure rather than the undefined method error.
