<b>Triaged:</b>	<b>Found in Releases:</b> Nightly
<b>Bugzilla link:</b> 1589641	<b>Red Hat JIRA:</b>
<b>Pull request:</b>	
<b>Description</b> Cloned from <a href="https://bugzilla.redhat.com/show_bug.cgi?id=1589641">https://bugzilla.redhat.com/show_bug.cgi?id=1589641</a> <b>Description of problem:</b> Browsing capsule puppet environments, Need to click twice on 'number of classes' to get the result  *Version-Release number of selected component (if applicable):*6.3.1  <b>How reproducible:</b> Always  <b>Steps to Reproduce:</b> 1. In Satellite, navigate to Infrastructure -> Capsules 2. Click on a Capsule name 3. Select the Puppet tab 4. Select the Environments sub tab 5. Click on any of the numbers in the "Number of classes" column  <b>Actual results:</b> First click on "Number of classes" doesn't work  <b>Expected results:</b> should list the puppet classes  <b>Additional info:</b> Should list puppet classes in the first click on the hyperlink	

#### History

#1 - 06/12/2018 06:09 AM - Marek Hulán

- Subject changed from *Browsing capsule puppet environments, Need to click twice on 'number of classes' to get the result* to *Browsing capsule puppet environments, Need to click twice on 'number of classes' to get the result*

This is reproducible on 1.18 rc1, it seems it requires production env (tested on rpm installation). The first click goes to dashboard, if you click quickly enough again (double-click), it goes to the right page. It seems the first click removes something that is hovering on that link.
