Katello - Feature #23899

As a container image admin, I want option to expose some images without requiring login

06/12/2018 10:18 AM - Thomas McKay

Pull request:	https://github.com/Katello/katello/pull/7459		

Description

The crane registry at :5000 is completely unauthenticated. With the new v2 api all access is authenticated. Allow images to be pulled without authentication.
Could be (depending on what is possible):
+ all images server wide
+ all images in a single org
+ all images in a lifecycle
+ all images in a content view
+ all images in a repository
+ s/wildcard/all/ ?

fixes #23899 - pull w/o authentication

History

#1 - 06/14/2018 03:53 PM - Thomas McKay

This seems reasonable to implement: The request header will have the repo being pulled which can simply be checked for permissions.
