<b>Description</b>		
If someone specifies settings in YAML like this:  ```yaml tls_disabled_versions: - 1.1 ```  Ruby will interpret it as a float. Currently, it must be quoted. <a href="#">@Ivan Necas</a> [added a to_s to the dynflow smart proxy plugin]( <a href="https://github.com/theforeman/smart_proxy_dynflow/pull/43#pullrequestreview-92019342">https://github.com/theforeman/smart_proxy_dynflow/pull/43#pullrequestreview-92019342</a> ) to fix this, this commit makes smart proxy behavior the same.

fixes #23917 - convert tls version to string

If someone specifies settings in YAML like this:

```
```yaml
tls_disabled_versions:
- 1.1
```
```

Ruby will interpret it as a float. Currently, it must be quoted.  
@inecas added a to\_s to the dynflow smart proxy plugin to fix this, this commit makes smart proxy behavior the same.
