

Foreman - Bug #23924

Lab Features -> Red Hat Subscriptions generates console error

06/13/2018 05:18 PM - Brad Buckingham

Status: Closed	
Priority: Normal	
Assignee: Tomer Brisker	
Category: JavaScript stack	
Target version: 1.18.0	
Difficulty:	Fixed in Releases:
Triaged:	Found in Releases:
Bugzilla link:	Red Hat JIRA:
Pull request: https://github.com/theforeman/foreman/pull/5723 , https://github.com/theforeman/foreman/pull/5734	
Description	
Using the 'nightly staging' repo, seeing the error below on browser console when loading 'Lab Features -> Red Hat Subscriptions'	
<pre>vendor-22e1b93...js:1 Uncaught TypeError: Cannot read property 'call' of undefined at a (vendor-22e1b93...js:1) at Object.40adf67927b2c88c987f (katello-965b9c4...js:1) at a (vendor-22e1b93...js:1) at Object.4f0c9d605b36d05352b8 (katello-965b9c4...js:1) at a (vendor-22e1b93...js:1) at window.webpackJsonp (vendor-22e1b93...js:1) at katello-965b9c4...js:1</pre>

Associated revisions

Revision 927e4ddc - 06/20/2018 05:09 PM - Tomer Brisker

Refs #23924 - replace HashModuleId with NamedModules

While this won't fix the issue, it will allow debugging which module is causing the issue.

Revision a9861944 - 06/25/2018 08:02 AM - Tomer Brisker

Fixes #23924 - Use consistent IDs for modules in webpack

This replaces the NamedModulesPlugin with a simplified version, that strips the relative path part of the module ID up to the node_modules/ part. This allows using consistent naming for modules, even when running the packaging from different directories relative to the node_modules folder (as is the case, for example, with katello and foreman).

History

#1 - 06/14/2018 03:59 PM - Walden Raines

- Target version set to 253

#2 - 06/14/2018 06:56 PM - Jonathon Turel

This same error is present on the Red Hat Repositories page, rendering it unusable

#3 - 06/18/2018 08:59 PM - Walden Raines

- Target version deleted (253)

#4 - 06/20/2018 11:38 AM - Ewoud Kohl van Wijngaarden

Could you post the exact RPM versions that you saw this with? Given nightlies are changing all the time this makes it easier for us.

#5 - 06/20/2018 01:54 PM - Brad Buckingham

I observed it with nightly; however, Jonathon confirmed the same with the RC1 builds.

On my nightly install, it has:

```
[vagrant@centos7-katello-nightly-staging ~]$ rpm -qa|grep katello
katello-debug-3.7.0-4.nightly.el7.noarch
foreman-installer-katello-3.8.0-1.nightly.201806122209git48894ec.el7.noarch

#6 - 06/20/2018 01:56 PM - Tomer Brisker

- Project changed from Katello to Foreman
- Category changed from Web UI to JavaScript stack
- translation missing: en.field_release changed from 338 to 330

Moving to core since this seems to be caused by the way webpack generates the vendor.js.

#7 - 06/20/2018 01:59 PM - The Foreman Bot

- Status changed from New to Ready For Testing
- Assignee set to Tomer Brisker

- Pull request <https://github.com/theforeman/foreman/pull/5723> added

#8 - 06/24/2018 07:33 AM - The Foreman Bot

- Pull request <https://github.com/theforeman/foreman/pull/5734> added

#9 - 06/25/2018 09:01 AM - Anonymous

- Status changed from *Ready For Testing* to *Closed*

- % Done changed from 0 to 100

Applied in changeset [a9861944e7fe5a6e2900ceda114870dc8a18b298](#).
