Katello - Bug #23982

Switching orgs in redhat_repos page shows a blank page

06/18/2018 02:26 PM - Andrew Kofink

Status:	Duplicate		
Priority:	Normal		
Assignee:			
Category:	Repositories		
Target version:	Katello Recycle Bin		
Difficulty:		**Fixed in Releases:**	
Triaged:	Yes	**Found in Releases:**	Katello 3.7.0
Bugzilla link:		**Red Hat JIRA:**	
Pull request:			

Description

1. Import manifests into two different orgs
2. Navigate to Content -> Red Hat Repositories
3. Use the org switcher at the top of the page to select the other org

Actual
Page is blank, no JS errors
ReactController#index is called, but the react controller does not call the Katello::API::V2::RepositorySets#index

Expected
Switching orgs works seamlessly. Bonus points, the page isn't reloaded at all (why are we reloading ReactController on org switch?), but the content on the page is refreshed to display the other organization.
