Pull request: https://github.com/theforeman/foreman/pull/5761	
Description	
When I issue wget -O - --body-file=LICENSE --method POST --header="Content-Type: text/plain" http://localhost:3000/unattended/failed?token=689ba68a-a511-44b1-bca5-c8f31ff353e I get this error: Encoding::UndefinedConversionError ("xE2" from ASCII-8BIT to UTF-8) Maybe we need something like this: .encode('utf-8', invalid: :replace, undef: :replace, replace: '_') Or make sure we get the correct encoding in the first place.
