Fixed in Releases:			

Description

Hi team ,

Please help me i am new in foreman and trying to install errata in forman and katello server .when trying to install errata i will get the below massages .

```
Repositories
```

ESC[91mThe server hostname configured on the client did not match the name found in the
server's SSL certificate. The client attempted to connect to [satellite] but the
server returned [DNS:satellite.example.com] as its hostname. The expected
hostname can be changed in the client configuration file.ESC[0m

Hi Justin ,

Really thanks for the update .Need your expertise to get the issues resolved which i am facing during foreman and katello setup .However i want to share the things with you that i have installed the foreman version 1.17 and katello 3.6 in my CentOS machine and successfully able to sync the Repository .
I want to know how to check the errata for both CentOS and Rhel instances .Kindly let me know your suitable timings so that we can discuss the issue on call or we can schedule the meeting also .

again thanks in Advance to helping me to setup the foreman .

#7 - 07/19/2018 08:11 PM - Justin Sherrill

Hi,

The error you are seeing above:

```
ESC[91mThe server hostname configured on the client did not match the name found in the
server's SSL certificate. The client attempted to connect to [satellite] but the
server returned [DNS:satellite.example.com] as its hostname. The expected
hostname can be changed in the client configuration file.ESC[0m
```

Where are you seeing this?

It looks like maybe one of your clients has some sort of misconfiguration and is referring to the 'satellite' hostname instead of satellite.example.com. Check your /etc/rhsm/rhsm.conf file on your client.

Hi Justin ,

Really thanks for the update . Could you help me for end to end setup of foreman server .I need your help to add the content host in foreman server as i have tried to add but after all steps content host is not showing in the content list .

We can have a cisco webex session as well if required .
