<b>Description</b>		
<p>When there's no imported manifest the repos page shows a message "No Red Hat products currently exist, please import a manifest here to receive Red Hat content. No repository sets available." where "here" is a link to:</p>		
<pre>https://foreman.example.com/subscriptions/manifest/import</pre>		
<p>That page doesn't exist which leads to a blank page being displayed to the user.</p>		
<p>The link should instead be:</p>		
<pre>https://foreman.example.com/subscriptions/</pre>
