

Katello - Bug #24131

Inconsistency in editing a host on web UI

07/02/2018 06:02 PM - Andrew Kofink

Status:	Closed		
Priority:	Normal		
Assignee:	Andrew Kofink		
Category:	Hosts		
Target version:			
Difficulty:			
Triaged:			
Bugzilla link:	1585529		
Pull request:	https://github.com/Katello/katello/pull/7490	Fixed in Releases:	
Description		Found in Releases:	
Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=1585529		Red Hat JIRA:	
Description of problem:			
Given a host that is using a different CV/LE than its hostgroup. When editing it, the hostgroups's default CV and LE are loaded. This behaviour is quite confusing as it makes people think that the updating is not successful after clicking on the submit button.			
Version-Release number of selected component (if applicable):			
Katello 3.4			
How reproducible:			
Easy			
Steps to Reproduce:			
1. Create a hostgroup with a CV and LE			
2. Create a host with the hostgroup			
3. Edit the host with a different CV and LE			
4. Check the editing host page again			
Actual results:			
On the editing host page, it shows the hostgroups's default CV and LE.			
Expected results:			
It should show the CV and LE that match the db entry.
