### Description

Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=1597079

**Description of problem:**
When user clicks the "Add Subscriptions button on the Subs page, and then navigates back via the browser, s/he is welcomed with a blank page.

**Version-Release number of selected component (if applicable):**
Test in Chrome latest

6.4.0 Snap 10

**How reproducible:**

**Steps to Reproduce:**
1. Login and upload a manifest to an org; let it process.
2. Navigate to 'Subscriptions'. Assure this page is populated.
3. Click the 'Add Subscriptions' button.
4. Hit the back button on the browser.

**Actual results:**
Blank page

**Expected results:**
User is returned to a populated Subscriptions page.

**Additional info:**
It's worth checking also the repositories page. I think it's affected too.
