Pull request:	
Description Hello everybody, we use Foreman 1.17.1 and got some UI issues. On the "All Hosts" view the "Environment" Parameter is empty for all hosts except the Foreman host itself. Furthermore, as you can see on the screenshots, the "Lifecycle Environment" and "Content View" variables are empty on the edit tab, although they are set correctly. The latter you can see on the "Content Hosts" view in the second screenshot. If you want to edit the host, these empty fields are marked in red upon save as expected. Andy ideas? Regards, Martin Angermeier	
Related issues: Is duplicate of Katello - Bug #24131: Inconsistency in editing a host on web UI <input type="checkbox"/>	Closed 07/02/2018
