

Katello - Bug #24197

Subscription update value of 0 passes UI validation, but fails in task.

07/09/2018 10:54 AM - Tomáš Strachota

Status: Closed	
Priority: Normal	
Assignee: Tomáš Strachota	
Category: Subscriptions	
Target version: Katello 3.7.0	
Difficulty:	Fixed in Releases:
Triaged: Yes	Found in Releases:
Bugzilla link: 1595296	Red Hat JIRA:
Pull request: https://github.com/Katello/katello/pull/7510	
Description Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=1595296 Description of problem: Entering a value of 0, in the entitlements field, passes the UI validation. However, the task itself will fail with "Quantity value must be greater than 0". See attached screenshot Version-Release number of selected component (if applicable): 6.4 Snap 9 How reproducible: Always Steps to Reproduce: 1. Upload a manifest with subscriptions. 2. Navigate to the Subscriptions page 3. Edit an entitlements field, and enter a value of 0 Actual results: There are no validation warnings, and you can submit changes. Expected results: Validation checks catch the bad value and does not let you submit changes.
