Description

A long time ago the segments in the charts were clickable. For example in the Host Configuration Chart for Puppet you can have x% in out of sync. That used to be clickable and take you to the search to show those hosts. The table with the same data still has clickable links.

Revision befa5578 - 04/21/2021 08:53 AM - Ondřej Ezr

Fixes #24351 - chart click through search

Fixes long lasting regression of charts on dashboard not being clickable through.
Adds posibility to specify custom filters for chart segments.
Moves click handler from DonutChartService to ChartService, as there is no reason for
this funcionality not to be added to more chart types in the future.
