Description		
Since PE supports AIX naively now, Foreman should have an OS Image for AIX to display like all other operating system images: http://www.akeastorage.com/themes/prestashop_new/img/nas-advisor/ibm-aix.jpg

Setting to need info until there's either a more royalty-free image, or a suitable licence for redistribution, sorry.

I have just created an icon set for this purpose.

If you don't like the colors, generate new set for me. But I've generated "forestgreen" color which is close to what AIX logo use.
