## History

**#1 - 05/09/2013 04:01 PM - Ohad Levy**

it seems like it used in at least two places:

```
app/models/host/managed.rb:        p[k.to_s] = k.value_for(self)
app/controllers/lookup_keys_controller.rb:        value = { :value => @lookup_key.value_for(host) }
```
