Revision 452d6329 - 05/24/2010 04:08 AM - Paul Kelly

Fixes #248 - Generalise tab management and search facility

The search facility is now available from all controllers.

The search bar is only displayed if there is a partial <controller_name>/_search_line.html.erb available. This partial also describes and implements the possible search parameters for this controller
Active tab management is also improved

The appearance of the searchbar and other page elements has also been improved.

History

#1 - 05/14/2010 08:50 AM - Paul Kelly

- Status changed from New to Ready For Testing

- Branch set to feature/248-generalised-searchbar

#2 - 05/14/2010 11:35 AM - Paul Kelly

Removed the File.exist? RAILS_ROOT stuff

Simplified the @active_tab structures

Ensured that the search was not run when deleting a tab

#3 - 05/16/2010 12:41 PM - Ohad Levy

- Target version set to 0.1-5

#4 - 05/24/2010 07:25 AM - Paul Kelly

- % Done changed from 0 to 100

Applied in changeset [452d63292a366794bedff9a16a1f7364786b52c2](#).

#5 - 05/27/2010 04:07 PM - Ohad Levy

- Status changed from Ready For Testing to Closed
