#### Description

When getting a foreman-debug from a customer I noticed all we have is production.log

When looking at the debug we grab production-log\* the file name is production.log\* so changing this to make sure we get the correct files.

#### Associated revisions

##### Revision 24ceb264 - 09/11/2018 07:57 AM - Chris Roberts

Fixes #24836 - Update production.log filename so we get log.gz.
