Description

Create a new unmanaged host and give it a password.

Provision it, try to log in.

Now edit the host and change something in there but do not touch the password field.

Reprovision, try to log in. Not possible.

History

#1 - 05/10/2013 02:50 AM - Ohad Levy

- Target version set to 1.2.0

yes, this is true to all passwords, rails changed the default behaviour, and now password fields are no longer visible.

it was already fixed for compute resources, and should be fixed for root password (host and hostgroup) and interface bmc password.
