Packaging - Bug #24928

plugins require rebuild when foreman changes its webpack vendor bundle

09/13/2018 10:20 AM - Tomáš Strachota

Status:	Closed		
Priority:	High		
Assignee:	Evgeni Golov		
Category:	RPMs		
Target version:			
Difficulty:		**Fixed in Releases:**	1.20.0
Triaged:	No	**Found in Releases:**	1.18.0, 1.18.1, 1.18.2, 1.19.0, 1.19.1, 1.20.0
Bugzilla link:	1630934	**Red Hat JIRA:**	
Pull request:	https://github.com/theforeman/foreman-packaging/pull/3012, https://github.com/theforeman/foreman-packaging/pull/3096, https://github.com/theforeman/foreman-packaging/pull/3100		

Description

When I go to Content -> Subscriptions and want to open a subscription, content container is blank and the container reactRoot only shows an empty div.

This happens only in production installations. So far I haven't been able to reproduce it in development.

Expected outcome:
Subscription details should be shown.

Foreman and plugin versions:
Foreman 1.19.0 (occurs from 1.18.0 on)
Katello 3.8.0

Associated revisions

Revision 649ef700 - 10/15/2018 03:54 PM - Evgeni Golov

Fixes #24928 - generators for requires/provides of webpack bundles

This adds automatic Provides and Requires for Foreman's webpack bundles.

Foreman ships webpack bundles in its RPMs to be consumed by plugins. To ensure
proper dependency relationships between the plugins and the main Foreman RPM,
this script generates Provides for the Foreman RPM that contain the hash of
the webpack bundles shipped and matching Requires for the plugins packages.
Each time the Foreman bundles change hashes, the plugins become uninstallable
and indicate that a rebuild is required.
