Description

We run into a bug with foreman 1.19 where some roles ends up with empty set of Permissions.

```
Filter.all.map{|f| [f.id,f.permissions.size]}\n=> showed us some filters that have a zero value (0)
```

if any of the permission filters have a value of zero passenger will fail to start with the following exception being thrown -

Web application could not be started

```

Error ID

This was remediated by removing the empty filters e.g.

=> Filter.find(198).destroy

The chat on #theforeman IRC channel suggested clearing up zero-sized filters on startup as a fix.
