Foreman - Bug #25008

Foreman API host facts returns facts two times

09/21/2018 12:28 PM - Jan Pacak

Status:	Resolved		
Priority:	High		
Assignee:			
Category:	API		
Target version:			
Difficulty:		**Fixed in Releases:**	1.20.2
Triaged:	No	**Found in Releases:**	1.19.1
Bugzilla link:		**Red Hat JIRA:**	
Pull request:			

Description

The request:
https://{{foreman-url}}/api/v2/hosts/{{host-url}}/facts?per_page=3

Returns the facts two times: {
"total": 527,
"subtotal": 4,
"page": 1,
"per_page": 3,
"search": " host = {{host-url}}",
"sort": {
"by": null,
"order": null
},
"results": {
"{{host-url}}": {
"augeas": null,
"disks": null,
"dhcp_servers": null
},
"augeas": null,
"disks": null,
"dhcp_servers": null
}
}

This is in collision with Ansible foreman plugin to read inventory:
https://github.com/theforeman/foreman_ansible_inventory/blob/master/foreman_ansible_inventory.py

line 251-255 - one result is expected.

Hello Jan,

I tried with the latest 1.20 version and I am not able to reproduce. Do you have any bindings to use 1.9 version?
