Difficulty:	Fixed in Releases:
Triaged: Yes	Found in Releases:
Bugzilla link:	Red Hat JIRA:
Pull request:	
Description Currently, when templates have not been configured for a given Host, yet it supports templates, then it displays a Foreman exception "No templates found" to the user (see screenshot). It would be great to display a blank slate, telling the user no templates have been found with a detailed explanation of how to configure the templates for the operating system.	

History

#1 - 10/01/2018 09:17 AM - Timo Goebel

- Assignee set to Peter Lehwess

#2 - 10/15/2018 11:23 AM - Lukas Zapletal

- Triaged changed from No to Yes

Assuming you guys want to tackle that, thanks!

#3 - 10/15/2018 12:26 PM - Peter Lehwess
