#2 - 10/05/2018 11:57 AM - Marek Hulán

this could be useful also outside of report templates, I'd say this could go to generic scope, you can take inspiration from <https://github.com/ares/foreman/commit/5f413e658fe4591a6935fe760ad13b01da160fd3> also there's existing ticket <https://projects.theforeman.org/issues/24027>

- Related to Feature #24027: Provide some macros for OS name/family and version comparsion added

#4 - 10/09/2018 03:07 PM - Martin Bacovsky

- Status changed from Ready For Testing to Rejected

host.operatingsystem_name is the same as host.operatingsystem.to_s. Closing this request.
