Pull request: https://github.com/theforeman/community-templates/pull/527	
Description	
Following on from https://projects.theforeman.org/issues/25117 which added IdM as a recognised realm_type to the kickstart default kickstart template, IdM should also be added to the other two templates that allow FreeIPA namely kickstart_default_user_data.erb and kickstart_default_finish.erb	
Again this means replacing: <% if host_enc[parameters]['realm'] && @host.realm && @host.realm.realm_type == 'FreeIPA' -> with: <% if host_enc[parameters]['realm'] && @host.realm && (@host.realm.realm_type 'FreeIPA' @host.realm.realm_type 'Red Hat Identity Management') -%>
