Pull request:		
Description twice today i've installed new foreman hosts (once from git, once from debian nightly) and the standard admin:changeme did not work. Both were postgres. Both worked after permissions:reset.

History

#1 - 05/21/2013 08:54 AM - Dominic Cleal

- Category set to Authentication
- Priority changed from Normal to Urgent

I can replicate this, deleting my sqlite DB, running db:migrate and am unable to login. Checking the database, the password_hash and password_salt fields are empty. Setting them manually to known values allows logins.

#2 - 05/23/2013 01:50 PM - Greg Sutcliffe

- Status changed from New to Ready For Testing
- Assignee set to Greg Sutcliffe
