Pull request:	https://github.com/theforeman/foreman/pull/6192, https://github.com/theforeman/foreman/pull/6238		

Description

we observe similar behavior as described here: https://projects.theforeman.org/issues/25140

however that happening not after migration or something, but every time when:

- there are discovered unprovisioned hosts present in the list
- The user with **non-admin** permissions try to create a "new host" (so discovery hosts are not even touched!)

the error message is

```
Invalid single-table inheritance type: Host::Discovered is not a subclass of Host::Managed
```

if the list of "discovered" hosts is empty. this problem does not hit. (so the user creating a host just fine.)

We are on **1.18.2**. Organizations are disabled.

full stack trace:

- Fixed in Releases Discovery Plugin 13.0, Discovery Plugin 14.0 added

Reproduced on develop. This is likely bug in core, but I will keep it in discovery for now until I find out.

- Status changed from New to Assigned

This might be issue with audit rather than data tables, looking into it: [#21037](#21037)

#9 - 10/18/2018 10:52 AM - Lukas Zapletal

I was able to reproduce this yesterday, but today it works with develop. Marek thinks this might be related:
https://github.com/theforeman/foreman/pull/4864/files

Can you try this:

```
foreman-rake console
> Audit.where(:auditable_type => 'Host').update_all(:auditable_type => 'Host::Base')
```

And try again to see if this fixes your problem?

And try again to see if this fixes your problem?

no it didn't help. The command gave 0 results in rake-console.

```
irb(main):002:0* Audit.where(:auditable_type => 'Host').update_all(:auditable_type => 'Host::Base')
=> 0
```

so also after - the behavior was the same.

```
Invalid single-table inheritance type: Host::Discovered is not a subclass of Host::Managed

Dima, any insights so far?

#14 - 10/31/2018 04:03 PM - Lukas Zapletal

I am able to always reproduce, the key thing is not to be a super admin! Looking into this.

WORKAROUND: Work under superadmin until this is fixed in 1.20 and 1.19 (unfortunately 1.17-1.18 are affected too and we are going to fix only the two last stable versions, let's see once I have some patch).

With 1.21 due soon, there will likely not be a 1.19.2 release. Removing.
