

Foreman - Bug #25208

Delete button on host page does not redirect to "All Hosts" when successful

10/15/2018 02:32 PM - Quirin Pamp

Status:	Duplicate	
Priority:	Normal	
Assignee:

Target version:		
Difficulty:		Fixed in Releases:
Triaged:	Yes	Found in Releases: 1.18.2
Bugzilla link:		Red Hat JIRA:
Pull request:		
Description When I delete a host via the button from its host page, I get a "Host not found Please try to update your request" warning because foreman is trying to access the host page of the now deleted host. Expected behaviour: A redirect to the all hosts page. Apparently this bug has existed before, way back in release 1.7 (where it was fixed): https://projects.theforeman.org/issues/8638		
Related issues: Related to Katello - Bug #24584: "Host not found" error after deleting host Closed		

History

#1 - 10/15/2018 02:35 PM - Quirin Pamp

- Subject changed from *Delete button on host page does not redirect away* to *Delete button on host page does not redirect to "All Hosts" when successful*

When I delete a host via the button from its host page, I get a "Host not found Please try to update your request" warning because foreman is trying to access the host page of the now deleted host.

Expected behaviour: A redirect to the all hosts page.

I am running Foreman 1.18.2

Apparently this bug has existed before, way back in release 1.7 (where it was fixed):
