Description

Cloning a Template and saving without changing it produces a diff.

@@ -1 +1 @@

1 <1 ?

Measured the template array coming from

const { template } = this.props.auditedChanges;

Inside ExpansiveView.js

The template array length when saving without changes is big, element for each char.

The template array length when saving with changes is 2, one for the old and one for the new as it should be.

TEMPLATE Array size: 2ExpansiveView.js:57

TEMPLATE Array size: 6206ExpansiveView.js:57
