Foreman - Bug #2545

EC2 instance does not show EC2 related options in Edit page.

05/22/2013 10:32 AM - Kamil Winczek

Status:	Closed		
Priority:	Normal		
Assignee:	Ohad Levy		
Category:	Web Interface		
Target version:	1.2.0		
Difficulty:		**Fixed in Releases:**	
Triaged:		**Found in Releases:**	
Bugzilla link:		**Red Hat JIRA:**	
Pull request:			

Description

EC2 type of instance, while edited, under Operating System tab provides Media, Partition Table, Custom Disk Layout and Root Password instead of just an Architecture, Operating system and Image.

This causes problem with saving edited instance. Foreman says that Image is not selected and won't save the instance. Selecting any Partition Table from the list allows instance to be saved.

Any chance you can try to reproduce this with 1.2 RC2? I think we've fixed it already.

#4 - 05/31/2013 06:36 AM - Kamil Winczek

Issue still occurs with 2e1e6f713d49ef6f5274d798f8882faa2579f680 and https://github.com/witlessbird/foreman/commit/262baf0.patch applied on top of it.

#5 - 06/02/2013 03:21 AM - Joseph Magen

Kamil, it looks like your patch was already included in. I assume this issue can be closed. Please confirm.

commit b08d7e45fbdea5f80fad5254e70d8b2004c05e36
Author: Dmitri Dolguikh <dmitri@appliedlogic.ca>
Date: Fri May 31 10:32:55 2013 +0100

```
fixes #2588 - fixed regression introduced earlier: localization works for non-AR classes too now
```

app/helpers/layout_helper.rb

commit 2e1e6f713d49ef6f5274d798f8882faa2579f680
Author: Dmitri Dolguikh <dmitri@appliedlogic.ca>
Date: Thu May 30 14:48:25 2013 +0100

```
fixes #2588 - table name used for localization is being determined correctly now for sti classes.
```

app/helpers/layout_helper.rb

#6 - 06/02/2013 03:51 AM - Joseph Magen

I misunderstood. I think you wrote that it still doesn't work after applying the patch. I originally thought that you were sending the .patch as a soluion.

#7 - 06/02/2013 06:45 AM - Ohad Levy

- Category set to Web Interface
