

Foreman - Bug #2637

Line breaks stripped from Smart Variables

06/10/2013 12:48 AM - Jonathan Melnick

Status: Rejected	
Priority: Normal	
Assignee:	
Category: Parameters	
Target version:	
Difficulty:	Fixed in Releases:
Triaged:	Found in Releases:
Bugzilla link:	Red Hat JIRA:
Pull request:	
Description	
I'm trying to manage SSL certs in Smart Variables. Regardless of how I configure the Smart Variables (string, json, yaml), the content's line endings get removed/replaced by spaces after saving the ariable.	

History

#3 - 06/19/2013 09:59 AM - Joseph Magen

- Status changed from Assigned to Need more information

Jonathan,

I have not been able to duplicate this error. When create a smart value and enter the default value as

```
firstline
secondline
thirdline
```

This is what is saved in the database with \n representing a new line.

```
"firstline\nsecondline\nthirdline"
```

#4 - 07/31/2013 04:54 AM - Joseph Magen

- Assignee deleted (Joseph Magen)

#5 - 02/29/2016 03:25 AM - Tomer Brisker

- Status changed from Need more information to Rejected

Could not reproduce. Closing.
