

Foreman - Bug #26504

Search Hosts by owner = current_user is very inefficient

04/01/2019 04:04 PM - Timo Goebel

Status:	Closed	
Priority:	Normal	
Assignee:	Timo Goebel	
Category:	Search	
Target version:		
Difficulty:		Fixed in Releases: 1.22.0
Triaged:	No	Found in Releases:
Bugzilla link:		Red Hat JIRA:
Pull request:	https://github.com/theforeman/foreman/pull/6636	
Description		
<p>When a user is a member of four groups and the groups each have a role that allows view_hosts access with a "owner = current_user" search condition, page loading is very slow. For every group the user leaves, the requests get faster.</p> <p>This gist contains a request log from api/hosts/redacted.example.com.</p> <p>https://gist.github.com/timogoebel/91bc1b6af28a1a6cdb598d713c3dc264/raw/0c33d1e7d8c379f52ca958641472828bcc6113a4/api-cleaned-sql.txt</p> <p>The (very simple) request took 30 seconds to be generated.</p>
