Installer - Bug #26625

foreman-proxy-certs-generate prints Org name not Org label in the sub-man command

04/16/2019 11:27 AM - Evgeni Golov

Bugzilla link:		**Red Hat JIRA:**		
Pull request:	https://github.com/theforeman/foreman-installer/pull/346			

Description

When generating a cert for a proxy, the output contains the following line:

```
  2. subscription-manager register --org "Default Organization"
```

However, sub-man needs a label, not the name to properly work. So the output should be

```
  2. subscription-manager register --org "Default_Organization"
```
