<b>Description</b> <a href="https://groups.google.com/forum/#!topic/puppet-dev/19brLt5MuDw">https://groups.google.com/forum/#!topic/puppet-dev/19brLt5MuDw</a>  The Puppet repositories are moving around. Current releases are moved to the top level while all release-archives.puppet.com is now used for EOL releases. In practice this means that the PC1 repository is gone. We should also add Puppet 6. The puppetlabs.com domain is also replaced with puppet.com.
