<b>Bugzilla link:</b>	1732488	<b>Red Hat JIRA:</b>
<b>Pull request:</b>	<a href="https://github.com/theforeman/community-templates/pull/598">https://github.com/theforeman/community-templates/pull/598</a>	
<b>Description</b>		
<p>In case of Google compute resource, when user tries to provision a host with puppet enabled then puppet communication between client machine and server won't work.</p> <p>After debugging, it is found that puppet service is down at the time of agent run through template.</p> <p>Expected behavior - In case of image provisioning, template should include puppet service start instruction.</p>
