

Foreman - Bug #27555

Can't add EC2 CR (ISE, Fog::AWS::Compute::Error: AuthFailure)

08/08/2019 03:08 PM - Marek Hulán

Status: Rejected	
Priority: Normal	
Assignee:	
Category: Compute resources - EC2	
Target version:	
Difficulty:	Fixed in Releases:
Triaged: Yes	Found in Releases:
Bugzilla link: 1723733	Red Hat JIRA:
Pull request:	
Description	
Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=1723733	
Description of problem:	
When trying to add a Compute Resource of type EC2 (when Loading Regions), I get the following error in WebUI: "An error occurred while testing the connection: Internal Server Error". The resource is then not added.	
Also, I get the traceback (attached) in logs.	
The traceback suggests that there are wrong credentials but I triple-checked them and the same credentials work for me on Sat 6.5.	
Version-Release number of selected component (if applicable):	
Reproduced on 3 different hosts with Sat 6.6 snap 7. Couldn not reproduce on Sat 6.5.	
How reproducible:	
Deterministic	
Steps to Reproduce:	
1. Infrastructure -> Compute Resources -> Create	
2. Select type AWS	
3. Enter your Access Key and Secret Key	
4. Click "Load Regions"	
Actual results:	
Error, traceback	
Expected results:	
Regions loaded	

History

#1 - 09/04/2019 09:37 AM - Lukas Zapletal

- Subject changed from Can't add EC2 CR (ISE, Fog::AWS::Compute::Error: AuthFailure) to Can't add EC2 CR (ISE, Fog::AWS::Compute::Error: AuthFailure)

- Status changed from New to Rejected

- Triaged changed from No to Yes

We are not able to reproduce this.
