Description	
I have installed Katello nightly today, so I have:	
<code>foreman-1.24.0-0.1.develop.20190807120250git040d58f.e17.noarch</code>	
but when I resize browser (firefox-68.0-4.fc30.x86_64) window in a way that "Log In" button is not visible, I can not scroll (neither via mouse wheel or keyboard arrows) to reach it.

- Status changed from New to Resolved

Tested on chrome and firefox and looks like it is no longer an issue
