<b>Pull request:</b> <a href="https://github.com/foreman/smart-proxy/pull/675">https://github.com/foreman/smart-proxy/pull/675</a>	
<b>Description</b>	
Hello,	
Two files withing smart-proxy/test/dhcp contain server references which are specific to the organisation where the code was used. I am creating this issue to link to a pull request to anonymise the references.	
If you have specific questions about the organisation, I would be more than happy to discuss them out of band. Please contact me on <a href="mailto:njd@ndietsch.com">njd@ndietsch.com</a> for more details.	
Kind Regards,	
Nathan Dietsch
