

## Foreman - Bug #28845

### When generating custom report, leave output format field empty

<b>Description</b> Cloned from <a href="https://bugzilla.redhat.com/show_bug.cgi?id=1792304">https://bugzilla.redhat.com/show_bug.cgi?id=1792304</a>	
<b>Description of problem:</b> When generating a report template that doesn't contain report_render string in template, the Output Format field is greyed out but contains the value of "CSV". This is misleading because the resulting file is a text file, according both to MIME type and to its extension.	
<b>Version-Release number of selected component (if applicable):</b> 6.7, feature unavailable in previous versions	
<b>How reproducible:</b> Deterministic	
<b>Steps to Reproduce:</b> 1. Create a report template that doesn't contain report_render string in template 2. Monitor -> Report Templates -> Generate	
<b>Actual results:</b> Output Format field greyed out, containing "CSV"	
<b>Expected results:</b> Something that is not misleading, e.g. empty value
