### Description

Observed "Failure: undefined method `title' for nil:NilClass" message in red dialog box on all hosts in web interface after upgrading from 1.23.1 to 1.24.2 on three separate Foreman hosts.

Env:
CentOS 7.7.1908
Puppet Open Source (puppet-agent) 5.5.18

## Associated revisions

### Revision 079723be - 02/10/2020 07:48 AM - Tomer Brisker

Fixes #28891 - Show host properties tab if missing taxonomy (#7420)

If a host isn't assigned to a location or organization, the properties
tab will fail to render.

## History

#### #1 - 02/02/2020 01:27 PM - Marek Hulán

Please upload a production.log with the full trace (the treaceback is the important part), I think I've seen something similar with organizations/locations recently. If that's the same thing, I have a patch at hand

#### #2 - 02/06/2020 05:09 PM - The Foreman Bot

*- Status changed from New to Ready For Testing*

*- Assignee set to Tomer Brisker*

*- Pull request https://github.com/theforeman/foreman/pull/7420 added*

#### #3 - 02/06/2020 05:09 PM - Tomer Brisker

*- Related to Refactor #15406: Move puppet_environment overview field outside core's #overview_fields helper. added*

#### #4 - 02/06/2020 05:10 PM - Tomer Brisker

*- Target version set to 1.24.3*

#### #5 - 02/06/2020 05:12 PM - Tomer Brisker

*- Category changed from Web Interface to Organizations and Locations*

Looks like the condition checking if a host has a location or organization assigned to it before showing it in the properties pane was dropped in a refactoring.

#### #6 - 02/06/2020 05:16 PM - Spencer Riner

Thanks for the update. I can upload production.log, but I don't see any tracebacks since we installed 1.24.2, so I don't know if it would be helpful.
