

Foreman - Feature #29038

Add ability to generate a report by clicking a link in a notification email

02/17/2020 04:51 PM - Jeremy Lenz

Status: Ready For Testing	
Priority: Normal	
Assignee: Jeremy Lenz	
Category:	
Target version:	
Difficulty: medium	Fixed in Releases:
Triaged: No	Found in Releases:
Bugzilla link:	Red Hat JIRA:
Pull request: https://github.com/foreman/foreman/pull/7546	
Description [SAT-E-459] User stories: <ul style="list-style-type: none">• The notification should contain the link to render a report with more details, specifically about what systems (hosts) will be affected by that expiration• The link needs to have report inputs in the URL query (see RM issue #29037 for details) <p>~Possible approach 1:~</p> <ul style="list-style-type: none">• The link should take the user to a page in Foreman (maybe report templates?) and notify via Toast that report generation is started• Once the report task is complete, the user should be redirected to it as is currently the case for any other report <p>~Possible approach 2:~</p> <ul style="list-style-type: none">• The link should take the user directly to the Report Templates page for the Entitlements report, with inputs filled in• The user can decide at this point whether to check the checkbox to get the report via email• The user can then click Generate to generate the report as normal	

History

#1 - 02/17/2020 04:52 PM - Jeremy Lenz

See <https://projects.theforeman.org/issues/28968>

#2 - 02/17/2020 05:32 PM - Jeremy Lenz

- Difficulty set to medium

#3 - 03/26/2020 05:01 PM - The Foreman Bot

- Status changed from New to Ready For Testing

- Assignee set to Jeremy Lenz

- Pull request <https://github.com/foreman/foreman/pull/7546> added

#4 - 03/27/2020 08:51 PM - Jeremy Lenz

- Description updated

decided to go with a third approach:

- The report is generated when the notification email is generated
- The link to the report is in the text of the email
