Bugzilla link:	Red Hat JIRA:
Pull request: https://github.com/foreman/foreman-packaging/pull/6555	
Description	
<p>https://community.theforeman.org/t/ansible-implementation-switch-to-ansible-runner/14114 https://community.theforeman.org/t/ubuntu-18-04-ansible-plugin-dependencies-broken/17369</p> <p>Ansible plugin fails to install on Ubuntu 18.04 Bionic because of package dependencies against 'ansible-runner'.</p> <p>According to documentation from ansible-runner installation can be done with pip.</p> <pre># If you do not have pip curl https://bootstrap.pypa.io/get-pip.py -o /tmp/get-pip.py && python3 /tmp/get-pip.py python3 -m pip install ansible-runner</pre> <p>But Foreman-installer fails anyway because it depends on the success of installation of the none existing deb package ansible-runner.</p> <p>https://github.com/ansible/ansible-runner/pull/316</p> <p>Ubuntu 18.04 is supported distribution for Foreman. Ansible plugin should support and test installation and usage on this distribution of linux.</p>
