

Foreman - Bug #29056

Hammer filter create fails if default organization is set.

02/18/2020 08:28 PM - Shira Maximov

Status:	Closed	
Priority:	Normal	
Assignee:	Shira Maximov	
Category:	API	
Target version:		
Difficulty:		Fixed in Releases: 2.1.0
Triaged:	No	Found in Releases:
Bugzilla link:	1778945	Red Hat JIRA:
Pull request:	https://github.com/theforeman/foreman/pull/7447	

Description

Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=1778945

Description of problem:

Hammer filter create does not work if default organization is set.

Version-Release number of selected component (if applicable):

Satellite 6.4

How reproducible:

100%

Steps to Reproduce:

1. Create a role with an organization
 1. hammer role create --name test2 --organization "Default Organization"
2. Set the Default Organization
 1. cat .hammer/defaults.yml

:defaults:
:organization:
:value: Default Organization
:organization_id:
:value: '1'
3. Try to create the filter for this role, It will fail with error
 1. hammer filter create --role test --search 'name = testfilter' --permissions view_organizations

Could not create the permission filter:

Internal Server Error: the server was unable to finish the request. This may be caused by unavailability of some required service, incorrect API call or a server-side bug. There may be more information in the server's logs.

4. Now remove the defaults file then it will work.

1. mv .hammer/defaults.yml /tmp/
 1. hammer filter create --role test --search 'name = testfilter' --permissions view_organizations
Permission filter for [Organization] created.

Actual results:

Hammer fails to create the filter if default organization is set.

Expected results:

Hammer should be able to create the filter if default organization is set.

Additional Info:-

Same issue is also reproducible on Satellite 6.6
