Fixes #29097: Move puppet-agent-oauth reinstall to Foreman hooks

Revision f35ae08d - 06/26/2020 03:46 PM - Ewoud Kohl van Wijngaarden

Refs #29097 - Handle command not found

44591b97fe11bcb8c55af88309166aab0fa4ac2c started to execute this command using `execute_command()` which uses `open3` under the hood. When a command doesn't exist, `Errno::ENOENT` is raised; unlike `system()` which returns `false`. This catches it and handles the output.

This surfaced on Debian with the Puppet hook:

```
/usr/lib/ruby/2.5.0/open3.rb:199:in `spawn': No such file or directory - rpm (Errno::ENOENT)
  from /usr/lib/ruby/2.5.0/open3.rb:199:in `popen_run'
  from /usr/lib/ruby/2.5.0/open3.rb:190:in `popen2e'
  from /usr/lib/ruby/2.5.0/open3.rb:349:in `capture2e'
  from /usr/share/foreman-installer/hooks/boot/01-kafo-hook-extensions.rb:110:in `execute_command'
  from /usr/share/foreman-installer/hooks/pre/31-puppet_agent_oauth.rb:2:in `block (4 levels) in load'
```
